

Authenticity in Passion, Synergy in Teams

# The best Technology Providers!

Mobiato consulting is a specialized global full service technology solutions provider, led by Business and Technology Consulting. Mobiato consulting with domain, data, design, and differentiated delivery to significantly enhance experience, enabling our clients to differentiate and disrupt their business. Our professional team of software developers mainly focuses on the Mobile Computing Industry, especially in the Middle East. We are the one of the leading companies in Route Accounting which implements Van Sales Automation system.

## VISION

Becoming a leader in technology and help businesses with technology requirements through deep expertise, objective insights.

## MISSION

We're making technology an asset for your business for long-term efficiency and growth.

We are known for the best services provided that include the post-implementation support along with the maintenance of:

- Systems design and analysis
- Presale Consultation services
- Project management
- Software implementation and customization
- Implementation of Hardware and integration of Host system

We provide complete accounting system for the electronic devices and the software as per the need. The integration of the services in providing the best solution can take place in our technology systems. We are considered as platinum level partners with eminent companies like Honeywell that can offer a range of mobility products. We have even developed a wide range of services offered to other firms that include barcode scanners, printers, and even handheld computers.

With ample experience, we have integrated the route along with accounting infrastructure that includes enterprise system and accounting system. The collection of such tools and products have enabled us to be the top priority for the custom programming services and systems.

## Our clients and Diversities

We have partners and clients all over the world and previously we had the opportunity to work with different ranges of clients focused on the FMCG, Retail, Healthcare, Government & Corporate Companies. We have the best experience required for the mobile computing software industry. We are even qualified and always ready to help our clients with respect to the data collection application. Our company is involved in various areas of supply chain management, business intelligence, and distribution.

We are efficient in providing Route accounting solution with a focus on the day to day activities. Along with this, the consolidated data of the salesmen transactions is provided. The services are provided with a deep insight into the operations with a feature-rich software called RoutePro.
