

# THE MOST POPULAR APP OF ALL TIME

## HOW WE HELP

Mobiato empties management is a cloud-based mobility solution that enables you to manage your empty goods by tracking reusable containers easily and in real-time. You can track down the containers with a serial number that improves safety, visibility, quality control, and backup. Our empties management app is equipped with cutting-edge technology which helps you scan deliveries, monitoring inventory, and more.

- 1** Save Time - With our empties management, you can now easily track, refill, and deliver empties to suppliers and vendors or re-stock it in your warehouse easily by not wasting time. No manual
- 2** Boost your Sales - With empties management, you will now get real-time data statistics and never miss a chance to refill it which means on-time re-filling and increased production which ultimately will lead to better sales results.
- 3** Better Customer Experience - Since through our empties management solution you will get to know which tanks, bottle, or crates are getting emptied, they can now quickly get refilled on time letting you provide better customer experience all the time.
- 4** Bespoke Customer Service - Get empties management solution for your company and set yourself free from manual procurement job. Handle, monitor, and track the movement of the empties easily and maintain a balance between vendors, customers, and companies for a bespoke customer service experience.
- 5** Design - Mobiato is a customized empties management solution for you that seamlessly blend in with your existing logistics. The integration of external partners such as suppliers and/or customers is considered in this as well. This modular product offers individual services that already meet all your requirements.
- 6** Install and Update from App Stores - Mobiato is available on Android Play Store, Apple App Store, and Windows Store. Users can download Mobiato from any of these platforms and start using it.

## WHY CHOOSE US?

Empty goods such as bottles, tanks, pallets, crates, and containers have become an indispensable part of logistics and are the biggest expense and wholesalers. You can also monitor and keep track of the movement of the empties between suppliers, companies, and customers. Through our app you can also administer, deposit, map, as well as manage transport equipment at any time and in real-time.

- Real-Time Flow Tracking:-** Empties management will help you track reusable containers easily. Data-down can be used to track the serial number which improves safety, visibility, quality control, and backup. Through this, you will get to know how many reusable bottles you need to meet a single day's production.
- Empties Stock Accounts:-** The system manages the customer's empties stock accounts. When the full product is delivered to the customer, the system posts the delivered tied empties to the relevant empties account. You enter the empties returned by the customer. The system updates the stock changes in the customer's corresponding empties account.
- Bills of Material:-** The Mobiato empties management system uses a sales bill of materials such as type 5, alternative 1 to automatically assign the appropriate empties, such as bottles, crates, and other empty goods to a full product, thus saving your time.
- Warehouse Management for Empties:-** You can easily manage bought and free empties and empties from your own production on a quantity basis and on a value basis. If the empties are only evaluated once when they are new in your business process, you can enter the empties without valuation, for example, in fixed assets as low-value assets. Continuous flow of Balanced Production
- Value-Based Grouping:-** You can group together bottles, plastic, glass, and so on those are levied with the same deposit value for listings in SD with our easy to use Mobiato app interface.
- Managing supply chain management is a huge:-** responsibility. One chain management can lead to a huge:- responsibility, uneven production plus supply; this can affect your business tremendously. Ultimately it is about solving the "crux" of the issue, which empties management will. Empties management is equipped with cutting-edge technology which will help you scan deliveries, monitoring inventory, and more.
- Stock-Specific:-** With Mobiato empties management app you can easily manage empties stocks for each customer in SD on a value basis and on a quantity basis as well as manage deposits on empties easily with losing.
